

Upsilon Xi is a campus social service organization stressing academic excellence and Christian perfection. The club is celebrating its tenth year of activity and hopes to continue and even supersede the endeavors of past years including "Sadie Hawkins," "Musical Pomposity," "Reflections," and other projects. This year has been a year of change and reorganization for Upsilon but it has been constructive, beneficial change proven by success, greater unity, and added responsibility. The newly added members contributed enthusiasm and respect; the Senior members experience and loyalty. These are successful ingredients, and goes to say that names and faces may change, but the ideals of Upsilon Xi remain the same.
